

Looking for a
new career?

The **NEW Health Information Management Diploma** is now being offered at CompuCollege! This exciting new instructor-led program is the only program of its kind in Newfoundland and Labrador.

This two year diploma teaches students to manage health care information, compile and analyze data and includes a series of field placements. This program provides the training and skills needed to work in one of the country's **fastest growing occupations**.

CompuCollege . . .
The Right School for the Job!
